Jason did an evaluation which is attached. Just enough to include it as an alternative. Currently planning to amending the FS, then meeting with PRPs. Then we have time to evaluate a pilot. Proposed plan at the end of this year. How does that sound?

Hi Kathy –

I remain very busy, but can't pass up the opportunity to help evaluate STAR for a site. Didn't realize when Rene asked the question the other day that it was in relation to Quendall Terminals. What's the timeframe you're looking at for the evaluation? Guess I need to get caught up to where you are with this -

Eva

Hi Eva,

I just thought I would check and see if you had some time to work on Quendall Terminals. We are in the process of adding STAR to our Technical Alternative, so at least it would be interesting.

Let me know...

Thanks

Kathy

Looks good to me.

One question has to do with

Ex. 5 Deliberative Process (DP)

Talked with Eva D and she said that she had heard of that problem from someone. Have you talked with her? Jim C.?

René
